Dear CHILD's NAME,

Do you know how I am able to get the teeth that you leave under your pillow without waking you up? I sprinkle fairy dust over you! It helps you to stay asleep and to have sweet dreams!

Then, I crawl and wiggle under your pillow until I find the tooth you left for me. Once I have it safely tucked in my satchel, I leave a special gift. Leaving a special gift is always my favorite part of collecting teeth from all the children. It makes me very glad to know how happy you all will be when you wake up to find it!

I hope you feel special and know that I love you and am happy when you are happy. Take care of your new teeth so I do not have to come collect those, too!

Enjoy your gift!

Love You Always,
